2010 Grand Prix of Dog Agility® World Championships & Performance Grand PrixSM Championships - Local Qualifiers

These tournaments are open to all competitors regardless of titles earned or skill level. Both are a single-round tournament featuring the sport in its basic form. The course includes obstacles as set forth in Chapter 3 of USDAA Rules and Regulations for standard agility, except that no table obstacle shall be used. Standard scoring shall be applied.

Competitors must have a ZERO fault round to earn a qualifying score for which qualifying ribbons are presented. One qualifying score is required for entry in Round 1 of a Regional Championships. Additionally, the first place competitor in each height class who has earned a qualifying score shall be eligible to enter the final round of a Type 1 Regional Championship without regard to their score in the first round. Such eligibility shall be documented through a "bye" voucher. A competitor may earn more than one voucher, and the voucher is non-transferable, can be used only once and must be submitted with the competitor's entry form for a Type 1 Regional Championship. See complete rules and regulations for Regional Championships, which are hereby incorporated by reference.

SPECIAL NOTES: When a local qualifier is held in conjunction with an agility test where all levels of titling are NOT being offered, 'bye' vouchers will not be awarded. (e.g. Starters/Advanced only, Advanced/Masters only, Masters only – **Tournament Only shows do not fall into this category**) Competitors with a qualifying score placing first in a jump height shall be named Regional Champion and earn a bye into the World Championship semifinals. Additionally, competitors at a Regional Championship with a qualifying score in Round 2 in the top 50% in each height class shall earn a bye into the semifinals at the Cynosport World Games. If at a regional championship a bye is earned by a competitor/dog team who has already earned a bye in that jump height, the bye is forfeited.

The rules may be found on the USDAA web site—General Information—Forms and Documents Library, or may be requested in writing by US mail from the USDAA office. A competitor must have two qualifications from local qualifiers, one of which may be from the first round of a Regional Championship, in order to qualify for entry to the world championship quarterfinals; however, where a competitor may choose to compete in both Grand Prix and Performance National Standard qualifiers during the current tournament season, the competitor is only eligible to compete in the championships of the tournament in which they have earned the most qualifications. Further, 2010 tournament rules stipulate that a competitor must compete all in Championship or all in Performance tournaments at Regional and National/World Championship events.

Masters non-standard classes shall be for dogs that have earned the Advanced *Agility Dog*[®] title, the equivalent non-standard title at the Advanced level, or that had previously qualified for entry into the equivalent Masters non-standard class prior to January 1, 2004.

PERFORMANCE PROGRAM CLASSES

Generally, Performance Level I, Level II and Level III are run on courses used for Starters, Advanced and Masters classes in the Championship Program, with the following exceptions: the A-frame is set at 5'6", jump heights are one height class lower as set forth in Notes to Competitors, no spread hurdles are utilized and time standards in the standard, jumpers classes are extended by 3 seconds beyond that utilized in the Championship Program. Eligibility is determined as follows:

The Performance I Standard classes shall be for any dog that has not earned the Performance Dog ISM title, the Performance Standard I title, or a qualifying score in the Performance II or Performance III standard classes. Performance I non-standard classes shall be for any dog that has not earned a title in the class being entered (Performance I Gamblers, Performance I Jumpers, or Performance I Snooker) or a qualifying score in the equivalent non-standard class at the Performance II or Performance III level. Three qualifying scores in the standard class from two different judges along with one qualifying score in each of the non-standard classes is required to earn the Performance Dog ISM title.

The Performance II Standard classes shall be for any dog that has earned the Performance Dog ISM title, the Performance Standard I title, the *Agility Dog*[®] title or the Veteran *Agility Dog*SM title, but has not earned the Performance Dog IISM title or Performance Standard II title, or a qualifying score in the Performance III standard class. Performance II non-standard classes shall be for dogs having earned non-standard class, but not having earned a title in the equivalent non-standard Performance II class or a qualifying score in the equivalent non-standard Performance III class. Three qualifying scores in the standard class from two different judges along with one qualifying score in each of the nonstandard classes is required to earn the Performance Dog IISM title.

The Performance III Standard classes shall be for any dog that has earned the Performance Dog IISM title, the Performance Standard II title, the Advanced *Agility Dog*SM title, or the Veteran Advanced *Agility Dog*SM title. Performance III non-standard classes shall be for dogs having earned the Performance Dog IISM title, the Advanced *Agility Dog*[®] title, the equivalent non-standard title at the Advanced or Performance II level, or that had previously qualified for entry into the equivalent Performance non-standard class prior to Jan 1, 2004.

STANDARD AGILITY

A standard agility course consists of a numbered sequence of obstacles and demonstrates a dog/handler team's speed, accuracy and teamwork, Standard agility classes are scored pursuant to Chapters 3-5 of USDAA rules and regulations.

NON STANDARD CLASSES

All non-standard classes are scored pursuant to the provisions of Chapter 6-7 of USDAA Rules and Regulations

Gamblers Class: Consists of a course with no pre-determined route and each obstacle is assigned a point value. In the "opening" period the handler seeks to accumulate points by performing the obstacles of his/her choice in the time allotted. At the conclusion of the opening the handler attempts the 'gamble', as a sequence designated by the judge to be handled from a distance, for additional points.

Jumpers Class: Consists of a course of jumps and may include a tire and tunnels.

Snooker Class: Has an opening sequence of point collection similar to the Gamblers followed by a closing sequence of a set pattern. Roughly parallels the billiards game of 'Snooker', requiring the dog to successfully complete a 'red' jump prior to attempting an obstacle designated as any other color.

Pairs Relay: Consists of a standard course with one dog and handler running a portion of the course, followed by a baton exchange to a second handler and dog who run the second portion of the course. Partners must be from the same height division, mini (Ch12/16, P8/12) or open (Ch22/26, P16/22), and from the same level (Starters, Advanced, Masters, PI, PII, PIII). In the event only ONE dog is entered in any program/level, dogs from another program/level or un-entered dogs may not be recruited to form a qualifying pair.

PRIZES AND AWARDS

Test Classes: First through fourth place ribbons will be awarded for each jump height in each class, with awards being made to mini and open divisions in pairs. All qualifying scores will receive a maroon rosette.

Grand Prix & Performance Grand PrixSM: All dogs earning a qualifying score will receive a maroon and white ribbon for Grand Prix and maroon and pink qualifying ribbon for PGP. First through fourth place ribbons will be awarded for each jump height for both classes.

Steeplechase® and Speed Jumping: Prize money will be awarded as described in this test schedule.
